Part II. Activities and Operational Information (Must be completed by all applicants)

- 1 Provide a detailed narrative description of all the activities of the organization—past, present, and planned. Do not merely refer to or repeat the language in the organizational document. List each activity separately in the order of importance based on the relative time and other resources devoted to the activity. Indicate the percentage of time for each activity. Each description should include, as a minimum, the following: **(a)** a detailed description of the activity including its purpose and how each activity furthers your exempt purpose; **(b)** when the activity was or will be initiated; and **(c)** where and by whom the activity will be conducted.

Since its inception in 1997 and its incorporation in 2001, the Seattle Internet Exchange (SIX) through its volunteers have operated an Internet exchange point in the city of Seattle, Washington.

An Internet exchange point (IX or IXP) is a physical infrastructure that allows different Internet Service Providers (ISPs) to exchange Internet traffic between their networks by means of mutual peering agreements, which allow traffic to be exchanged without cost or at low cost. IXPs reduce the portion of an ISP's traffic which must be delivered via their upstream transit providers, thereby reducing the cost of their service. In addition, the increased number of paths learned through the IXP improves routing efficiency and fault-tolerance, thus providing a direct benefit to the consumers that receive Internet service from the participating ISPs.

For example, by virtue of the SIX, a King County Library patron browsing a news article on the Seattle Times web site will experience very fast web browsing as a result of Internet traffic staying entirely in the Seattle area, rather than having to traverse network interconnections in the Bay Area of California. (King County is a member of the SIX. The Seattle Times is a customer of a member of the SIX.)

The physical infrastructure of the SIX consists of a network switch which passes IPv4 and IPv6 Internet Protocol packets between member participants. The network switch is located in the Westin Office Building in Seattle, Washington in a rack provided at no cost by the building management. Electricity and cooling is provided at no cost by the building management and by other tenants. The primary method for connection to the SIX is via fiber optic cable.

The SIX welcomes as members all legal entity types: Government, non-government, educational, for-profit, non-profit, etc.

At present the SIX does not charge membership fees and is run entirely by unpaid volunteers. Members and interested parties contribute equipment and money as needed to maintain the service. New members are required to provide the equipment necessary to facilitate their connection or cash equivalent.

The SIX holds an annual membership meeting every April. During this meeting a Board of Directors is elected. Following the annual membership meeting, the new Board of Directors elects the officers for the organization.

All member and director meeting minutes, along with annual finance reports, are posted publicly on the SIX web site at "<http://www.seattleix.net/docs/>".

- 2 List the organization's present and future sources of financial support, beginning with the largest source first.

The SIX does not charge membership fees. Members and interested parties contribute equipment and money as needed to maintain the service. New members are required to provide the equipment necessary to facilitate their connection or cash equivalent.

Past sources of large financial, equipment or technical support has been from Cisco Systems, Packet Clearing House, Time Warner Telecom, Integra Telecom, Sixth & Virginia Properties, Akamai Technologies, Limelight Networks, Hurricane Electric, Microsoft Corporation, Semaphore Corporation, ColoCenters, Swift Communications, Shaw Cablesystems, Northwest Open Access Network, EarthLink, Inc. and Speakeasy Inc.

Our complete list of donors and their contributions is publicly maintained at "<http://www.seattleix.net/contrib.htm>".
